ST. CLOUD, MINN, October 13 --Bright, sunshiny weather, after two plays' rest, made William J. Bryan feel in fine fettle when he started out campaigning this morning in his special car, which left Minneapolis at 8 p'clock behind a fast locomotive. The Brean party consisted of Mr. and Mrs. Eryan; Congressman Charles A. Towne, fudon ticket; ex-Congressman J. R. Wilams, of Illinois; John W. Tomlinson, of Alabama; J. C. Hayter, candidate for the Legislature, and Mrs. Hayter, and T. Hudson.

Mr. Bryan's objective point to-day was Duluth, and the road taken from Minnepolls for that place was the Northern Anoka was the first stop. It was reached shortly after 9 o'clock, Several hundred people there heard a little resch from the candidate.

Cheers for McKinley were pretty fre quent at Elk River, the next haltingplace. They came from a group of men hered on the edge of the crowd. It a battle for lung supremacy bethe Bryanites and the McKinleynd the contest had not been decided the train drew out.

Congressman Towne followed Mr. Bryan briefly, and on the conclusion of his speech the whole party returned to the special train, which pulled out at 11.55.

At Rice's there was a hard-working prass-band and a good-wized crowd, and Mr. Bryan spoke again. Fifteen minutes were spent by Mr.

Bryan at Little Falls. It was exactly noon when the train came to a stand-still a hundred feet from a temporary stand, about which a thousand people and numerous vehicles were gathered. Judge Shaw, a local attorney, presented Mr. Bryan, who spoke until the warning blew from the locomotive. Mr.

CROWDS FAIRLY LARGE.

DULUTH. MINN., October 12.—Five stops were made by the Bryan special between Little Falls and Duluth, and five more speeches were added to the several hundred the Democratic candidate has made in the campaign. For the sizes of the places where the train halted, the crowds that turned out to see Mr. Bryan were of fair proportions. That at Staples numbered 80; at Brainerd, 2,00; at Aitken, 30; Carleton, 50; and West Superior, 10,60. No stop was made at Mottey, but the train was slowed down to enable about a hundred people at the station there to see the nomlinee and Mrs. Bryan, McKinley badges of yellow ribbon were bottceable at several places, particularly at Brainerd, and Mr. Bryan made some fomments on their use. "I do not know what arguments are most familiarly advanced here against free colnage." he taid, ("Coercion," shouted some one.)

THE AUSTRALIAN BALLOT. THE AUSTRALIAN BALLOT.

"I was going to say that coercion was the argument that is being resorted to now by our Republican friends more than any other argument." continued the nominee; "but there is one advantage about the voting in the States where they have the Australian bailot, and that is that while a man wears a badge in order to save his employment, he has a right to use his vote in order to save his country. These are hard times, and they will be harder than this if the gold standard continues, and I do not wonder that the man who has a job does not like to risk having the job taken away from him because he insists upon being an American citizen. (Applause.) But I do rejoice that the inboring men of this course were instrumental in getting this country were instrumental in getting an Australian ballot to protect them in just such crises as we are now passing through.

worth saving."
West Superior, Wis., turned out the biggest crowd of the day. It numbered in the neighborhood of 10,000 people, and in the neighborhood of 10,000 people, and the throng was so thick about the stand from which Mr. Bryan spoke that the greatest effort was necessary on the part of the police to get the candidate and his wife through. While Mr. Bryan was speaking, somebody shouted, "How about Sickles?" referring to General Dan. Sickles?" referring to General Dan. Sickles, of New York, who botted the Tammany endorsement of Bryan and Sewill, and recently made a speech at Duluth in favor of McKinley. "For every old soldier we lose," responded Mr. Bryan, "we gain a dozen." (Cheers from the crowd followed.)

John W. Tomlinson, of Birmingham, Ala.," a member of Mr. Bryan's party, also spoke at West Superior.

THE DAY'S RECORD.

THE DAY'S RECORD. DULUTH, MINN., October 12.—Thirteen speeches and 200 miles of roundabout travel through Minnesota, with a little slice of Wisconsin Included, was W. J. Bryan's campaigning record of to-day.

5,000 people, gave the largest audiences of the day, excepting, of course, the figures of the Duluth reception.

At a number of places along the line of the Northern Pacific road Mr. Bryan found that many of his hearers wore the familiar yellow slips of paper or ribbon containing the name of his Republican opponent. At Brainerd they were numerous, enough to call forth a few comments by the nominee. Cheers for McKiniey were heard at the stops; in fact, the day began with them at Anoka, where Mr. Bryan delivered his first speech.

To-day's trip was taken by the Democratic candidate for the special purpose of aiding Representative Charles A. Towne in his fight for re-election to the Federal Legislature. Duluth is Towne's home, and his local supporters, with several more from other parts of his district, who came in on excursion trains, turned out to-night to do honor to the Nobraska man. A big crowd was at the Union depot when the candidate's train arrived, at 7 o'clock, and hearty cheers followed Bryan and Towne on their way through the streets to the St. Louis Hotel. Immediately after supper there, Mr. Bryan started out to fulfil his Duluth contracts.

MR. LEVERING'S ADDRESS.

At the conclusion of Professor Alwood's address Mr. Hoge introduced Hon. Joshua Levering, who was received with tumultuous applause, long continued. Mr. Levering, who looks every inch a man, and every inch a king, began by pressing his great pleasure at speaking to an audience in the historic capital of glorious old Virginia. He declared that we have come down from the high plane had made the period of the talked about the Democratic side of the talked about the said, "Give me liberty, or give me death." "The American people," he made the party their God. Party fealty has blinded us, but the signs are auspicious that the sovereign of the said that the sa people are going to break the fetters of party sentimentalism, and are going to

It is not 'in money we trust.' but 'in God we trust.' 'The liquor traffic,' says a great New York paper, 'threatens the ballot and the home.' We cannot per-

mit either to be destroyed or dethroned."

The eloquent speaker enlarged on the sanctity and purity of home life, and declared that the liquor traffic was the arch-enemy of the home, the foundation-stone of our great republic. The sanctive of the heller and the importance of y of the ballot and the importance of preserving its freedom and purity was most eloquently upheld as the highest and most sacred trust of an American citizen. The ballot, Mr. Levering said, should be honest, unselfish; should elect honest, unselfish men, to enact unselfish laws, to be executed honestly by honest and unselfish men. The perversion of the sacred right of the ballot was boldly proclaimed, and the liquor traffic ar-raigned as the chief trouble, "What candidate of the old parties will

come out against this traffic?" the er asked; and then answered,

This line of thought was enlarged upor in an able and interesting manner. The speaker then thrillingly spoke of the enormous ravages of the demon drink that is carrying down to decay, misery, and death the youth of our homes and beautiful land. The statistics presented to the connection were significant, and in this connection were significant, and the illustrations used by the speaker to impress his points were appropriate and Desperate diseases require he-

The speaker proceeded to discuss the question of benefits that will accrue to the country from the success of either of the old parties, and declared that no matter which was successful, the saloon and its death-dealing reign will be perpetrated four years more. "What a tribute you propose to pay to settle the currency question," he ejaculated. "Permit the existence of a curse that annually carries down to physical and eternal death 60,000 down to physical and eternal death 60,000 of your fellow-citizens."

FROM AN ECONOMIC VIEW.

The second division of the distinguished speaker's address considered the prohibition question from the economic standpoint, and from his standpoint he maintained the insignificance of the money and the many tained the standard with issue and other issues as compared with the prohibition issue. "It is not over-pro-duction," he said, "that causes hard times, but under-consumption, caused by the people's money being diverted from its proper channels into the saloon cof-

CHICAGO, ILL., October 13.-An important meeting of the National Committee of the People's party was held today at the Sherman House. The following members were present: 2 Senator Marion Butler, chairman; J. R. Sovereign, of Arkansas; H. W. Reed, of Georgia; George F. Washburne, of Massachusetts; John W. Breidenthal, of Kansas; M. C. Rankin, of Indiana; J. A. Edgerton, of Nebraska; C. F. Taylor, of Pennsylvania. The only ausentee was John S. Dore, of California.

The committee was in almost continuous secret session from morning until midnight. The preparation of an address to the voters of the party engaged most of the time. Fusion differences and the attitude of certain members towards Watson formed a subject of protracted debate. Mr. Reed came as the personal representative of Mr. Watson, having spent two days with Wafaon just before leaving Atlanta. His signature to the address, which explains and justifles joint Watson-and-Sewall electoral tickets, and appeals to Populists to support them at the polls, is accepted as proof that peace has been restored over this discussion in committee.

Mr. Butler said no action had been taken by the committee relative to Watson's withdrawal, and none would be; that he would remain on the ticket. Another meeting will be held to-morrow, Following is the address prepared

of a straight Popular teact at 3. Louis namely, the election of McKinley and the triumph of the gold standard. "The other course left open to your committee that was consistent with the action of the convention in nominating Bryan was to do everything in its power to unite the voters of the country against McKinley, and to overcome the obstacles and embarrassments which, if the Democratic party had put the cause first executive second we would not have and party encountered. FUSION.

"This could be accomplished only by arranging for a division of the electoral vote in every State possible, securing so many electors for Bryan and Watson, so many electors for Bryan and Watson, and conceding so many to Bryan and Sewail. At the opening of the campaign, this, under the circumstances, seemed the wisest course for your committee, and it is clearer to-day than ever that it was the only safe and wise course if our voices were to be cast and made effective for the relief of an oppressed and outraged people. Following this line of policy, your committee has arranged electoral tickets in three fourths of the States, and will do all in its power to States, and will do all in its power to make the same arrangements in all of the States. By perfecting this arrange-ment, and every sincere opponent of the gold standard giving loyal support to these joint electoral tickets, the People's these joint electoral tickets, the People's party will not only secure in the Electoral College for Bryan and Watson several times as many votes as we could have possibly secured by markey a straight ticket, but we will secure the defeat of McKinley and the gold standard, which should now be the greatest desire of every citizen who believes in the principles of true Democracy.

every citizen who believes in the principles of true Democracy.

The Republican managers and their Democratic allies realize this and are ruting forth evens offer. hope of the money. The Republican managers and their Democratic allies realize this, and are putting forth every effort to accomplish this end. Some of the Democrats of the revenue stripe, who are not yet weaned from the flesh-pots of Esppt, but are sticklers for regularity, and are nominally supporters of Mr. Bryan, while secretly and in every underhanded way trying to accomplish his defeat, are advising against the joint electoral tickets, and failing in this, they advise Democrats to scratch People's party electors; and already a few so-called Populist leaders are advising the rank and file of our party to strike back by refusing to support the Democratic electors on the joint electoral tickets. This is a trap set by the gold-bugs, who are rejoicing that a few honest men have fallen into it. These reports to-day are the only ones that buoy up the hopes of the Republican managers, and the Democrats and Populists who are thus enleagued are doing just what the gold men desired. Therefore, we appeal to every Populist who may have been misled by such mistaken or false pleas of pretended loyalty to the People's party into refusing to support such joint electoral tickets, to stop and consider the results of such conduct, and refuse to be influenced by either misguided or corrupt men.

Kemper, and Colonel Thomas Whitehead. The topic which engaged the attention of the board last night was that of assaying the minerals of the State. For the past few years this work has been done at the Virginial Polytechnic Institute, at a cost of about \$125 per annum until the past year, when the bill amounted to \$11. Statements were heard from Professor Prochling and others, but no conclusion regarding the work in the future was reached.

The board determined to call upon the Governor in a body this morning at 9 o'clock and pay its respects to the Ex-

All the Blayers with the exception of five-Hoston, Groner, Dabney, Cocke, and Davis-are new men, but have been showing up in good style. Martin, on left end, played at Pantops last year, and is now making a good man for the 'Varsity. His tackling is sure, and his breaking interference of the best order. Morrison also played on the Pantops team, find he is now showing up in fine form. Somoskeoy, the other tackle, is a former Williams College player, and with Morrison, they will no doubt make two of the best tackles Virginia has ever had. If present, indications amount to anything.

Johnson is a man of experience in his position, and is a powerfully built player. Davis has shown his ability too well in former years to need any criticism. Wallace is an old man, but has nevel before regularly applied for the team. His playing at centre is good, and insures him his position. showing up in good style. Martin, on

Sitting in the twilight pondering On God's wondrous love to me. Something seemed to bear me upward, Even Father, unto Thee.

And the twilight changed to noonday And the rippling waves to harps; P'ayed upon by angels fingers, Seething, softening troubled hearts. Oh, God, give me more such visions.
More such loving dreams of Thee.
For it brings me nearer Heaven.
Nearer, nearer, God, to Thee.

Nearsr, nearer, God, to Thee
Evening, morning, and at midday,
Will I come to Thee in prayer,
Asking Thee to bring me home, Lord,
From this world of want and cat.,
And when I shall cross the river,
Over on the other side,
I shall once more hear the angels,
And with them and Christ abide.
